RFP #170007291
Medicaid Coordinated Care Demonstration Project

Amendment #1

Amendment Issue Date: January 25, 2017

IMPORTANT NOTE TO OFFERORS: Only the following items referenced in this amendment are to be changed. All other sections of the RFP remain the same. This amendment also serves to answer questions submitted by interested parties. A copy of the amendment is available on the State's Vendor Self Service website.

• **The following revision has been made to RFP Section 1.13 Pre-Proposal Conference.**

Two pre-proposal conferences are scheduled to discuss the work performed with the prospective offerors and allow them to ask questions concerning the RFP. Questions and answers will be transcribed and provided as an amendment to the solicitation as soon as possible following each meeting.

The meeting schedule is as follows (all times are prevailing Alaska time):

- Wednesday, February 8, 2017: 10:00-11:00 AM
- Wednesday, March 8, 2017: 10:00-11:00 AM

Participants may join the teleconference at 1-800-315-6338, access code 78005#

• **Vendor Questions have been answered as follows:**

Q1: Some potential bidders are health care organizations comprised of numerous subsidiary corporate entities with separate lines of business, organized under a common corporate parent entity. These include separate entities experienced in the business of care management and Medicaid managed care, respectively.

Section 1.01 of the RFP states "Each proposal submitted in response to this RFP must fit into one, and only one, of these models, and each offeror may submit only one proposal." However, the term "offeror" is not defined in the RFP.

In order to encourage proposal responses and competition for the State while soliciting the best possible selection of various health care models, are separate legal entities affiliated under the same corporate parent permitted to submit distinct responses proposing a different health care model, for example one proposing a Care Management Entity model and another a Managed Care Organization model?

A1: Yes. This is consistent with the intent of the RFP and would be allowed.
