Alaska Division of Public Health
Contacts for Animal Control in Alaska

This list is intended to serve as a starting guide for health care providers, other professionals, and the general public who may have questions about animal control contacts in their area. Some cities or boroughs have locally authorized animal control departments; other areas have limited animal control services accessed through the local police department. Villages and regions served by tribal health corporations have some services through their environmental health programs. Not all cities or regions are listed in this list; areas not listed may only have services through the Alaska State Troopers. Please send any errors, updates, or suggestions to louisa.castrodale@alaska.gov, or call 907-269-8000.
