If your practice manages private vaccine inventory in VacTrAK, make sure the vaccine names and types you enter into inventory match the administered vaccine. Speak with the person entering your lot numbers if you notice any issues/problems. Refer to the CDC reference tables for the most up to date [CVX – vaccine codes](#) and [MVX - manufacturer codes](#) required for data exchange between VacTrAK and electronic health record systems. CDC reference tables for [NDC codes](#) and [Vaccine Price Lists](#) are also available for reference.
