You will have to wait to sign up until the General Enrollment Period, January 1 – March 31 each year. Coverage will start July 1.

*People with limited income and assets may get help from Medicaid or the Medicare Savings Program to help pay Part A and/or B premiums, which also removes late enrollment penalties.

Part D – Prescription drug insurance

Benefits: This optional coverage helps pay for prescription medications. If you have other creditable drug coverage (equally good prescription insurance) you usually do not need a Medicare Part D plan. There are 25 different plans in Alaska for 2021. Enrollment is when you first become eligible for Medicare or Oct. 15-Dec. 7 (the Open Enrollment Period). Costs and covered drugs can change each year, so compare plans every year during the Open Enrollment Period.

Part D Premiums: \$7.30 - \$93.70 per month *premiums can also be higher if you have a late enrollment penalty or have a higher income (IRMAA).

Deductibles, Copayments, and Coinsurance: The amount you pay for Part D deductibles, copayments, and/or coinsurance varies by plan. To compare plans, visit Medicare.gov, call 1-800-Medicare (1-800-633-4227), or call the Alaska Medicare Information Office (907) 269-3680.

Part D Late Enrollment Penalty: If you do not sign up for Part D when you are first eligible, or you drop Part D and then get it later, you may have to pay a late enrollment penalty for as long as you have Part D. The late enrollment penalty is based on 1% of the national base beneficiary premium (\$33.06 in 2021) time the number of months you were eligible but did not join a Medicare Part D plan and went without other creditable drug coverage. The final amount is rounded to the nearest \$0.10 and added to your monthly premium.

Extra Help is an assistance program through Social Security that helps pay Part D drug plan costs. It is available for single people with annual income at or below \$23,016 and resources at or below \$14,610, or for married people with annual income at or below \$31,116 and resources at or below \$29,160. Medicare Supplement Insurance (Medigap)

Medigap policies are sold by private insurance companies to cover the "gaps" in Medicare. It is best to purchase a Medigap policy in the first 6 months of starting Medicare Part B (Medical) insurance. This 6-month period is called the Medigap Open Enrollment Period.

People that are eligible for retiree plans from their employer, union, TRICARE or Medicaid usually do not need Medicare supplement insurance.

Medigap insurance companies in Alaska sell standardized plans identified by the letters A, B, C, D, F, G, K, L, M, and N. Every company must sell Plan A (Basic Benefits). If the company offers any plan in addition to Plan A, it must be C or F. To compare plans from different companies, be sure they are the same letter. Then the benefits are the same; the difference will be the monthly cost (the premium).
