

Planned Parenthood Great Northwest Hawai'i, Alaska, Indiana, Kentucky

Price List

This list contains the undiscounted costs for our most common health care services. The price listed might be different than the amount you actually pay. For example, if you have health insurance, Medicaid, or qualify for discounted care your out-of-pocket costs might be much lower or even \$0. Let us know if you'd like an estimate of your anticipated charges for your care.

The list also includes CPT (Current Procedural Terminology) codes, which are a set of standardized codes to describe identical medical services among different health care providers. Because everyone uses the same code to indicate the same services, CPT codes make it easier for you to understand and compare costs.

Planned Parenthood is committed to quality, affordable health care. Please let us know if you have questions or need assistance covering the cost of your visit.
