Subject: Update to Fees-for-Service tests for fiscal year 2027

This notification is for providers who use the Alaska State Public Health Laboratories' fee-for-service program. We have updated our list of billable tests and reduced the number of tests that will be billed beginning in fiscal year 2027 (effective July 1, 2026).

These changes reflect updates within the Department of Health and our commitment to disease elimination efforts for hepatitis, measles, and other conditions. As a result, some tests previously billed will no longer carry charges. A new appendix to the fee agreement is now available.

If your organization has already signed our fee agreement, no further action is needed. If your organization has not yet signed an agreement but intends to submit tests included on the limited-fee menu, please complete the fee agreement here:
