

**AGGREGATE DATA REGARDING THE NUMBER OF DEATHS, INJURIES AND
SUBSTANTIATED ABUSE IN A CHILD CARE SETTING**

OCTOBER 1, 2021 - SEPTEMBER 30, 2022 (Federal Fiscal Year 2022)

The State of Alaska Child Care Licensing 7 AAC 57 and Child Care Assistance Program 7 AAC 41 regulations require all licensed child care facilities and exempt providers to report injuries requiring medical attention. Medical attention is defined as attention by medical personnel outside of the child care premises. Exempt providers include Approved Relative and Approved In-Home. The State of Alaska has defined “serious injury” as the following:

- Injury requiring surgery, excluding stitches;
- Injury requiring admittance to hospital;
- Choking or unexpected breathing problems;
- Unconsciousness;
- Concussion;
- Poisoning;
- Medication overdose;
- Broken bone;
- Severe head or neck injury;
- Chemical ingestion or contact in eye(s), mouth, or skin;
- Severe burn;
- Allergic reaction requiring administration of Epi-Pen; and
- Seizures.

The data in this report is based on all provider types regulated in the State of Alaska: Licensed Centers; Licensed Group Homes; Licensed Homes; and Child Care Assistance Approved Relative Providers and Approved In-Home Providers.

1. Number of deaths in a child care setting: One (1)

<i>Facility Type</i>	<i>Total Facilities in FFY22</i>	<i>Total Capacity for Facilities in FFY22</i>	<i>Number of Deaths</i>
Licensed Center	219	15,006	0
Licensed Group Homes	52	617	0
Licensed Homes	169	1,295	1
Approved Relative and Approved In-Home	10	35	0

2. Number of serious injuries in a child care setting: Nineteen (19)

In Federal Fiscal Year 2022 (FFY22), out of 450 child care facilities with a total capacity of 16,953 children, there were 49 reported injuries statewide in a child care facility. Of the total 49 reported injuries statewide, 19 injuries (39%) were defined as a “serious injury”.

<i>Facility Type</i>	<i>Total Facilities in FFY22</i>	<i>Total Capacity for Facilities in FFY22</i>	<i>Number of Injuries</i>
Licensed Center	219	15,006	45
Licensed Group Homes	52	617	4
Licensed Homes	169	1,295	0
Approved Relative and Approved In-Home	10	35	0

3. Number of incidences of substantiated child abuse in a child care setting: None (0)

<i>Facility Type</i>	<i>Total Facilities in FFY22</i>	<i>Total Capacity for Facilities in FFY22</i>	<i>Number of Substantiated Child Abuse</i>
Licensed Center	219	15,006	0
Licensed Group Homes	52	617	0
Licensed Homes	169	1,295	0
Approved Relative, Approved In-home	10	35	0

**AGGREGATE DATA REGARDING THE NUMBER OF DEATHS, INJURIES AND
SUBSTANTIATED ABUSE IN A CHILD CARE SETTING**

OCTOBER 1, 2020 - SEPTEMBER 30, 2021 (Federal Fiscal Year 2021)

The State of Alaska Child Care Licensing 7 AAC 57 and Child Care Assistance Program 7 AAC 41 regulations require all licensed child care facilities and exempt providers to report injuries requiring medical attention. Medical attention is defined as attention by medical personnel outside of the child care premises. Exempt providers include Approved Relative and Approved In-Home. The State of Alaska has defined “serious injury” as the following:

- Injury requiring surgery, excluding stitches;
- Injury requiring admittance to hospital;
- Choking or unexpected breathing problems;
- Unconsciousness;
- Concussion;
- Poisoning;
- Medication overdose;
- Broken bone;
- Severe head or neck injury;
- Chemical ingestion or contact in eye(s), mouth, or skin;
- Severe burn;
- Allergic reaction requiring administration of Epi-Pen; and
- Seizures.

The data in this report is based on all provider types regulated in the State of Alaska: Licensed Centers; Licensed Group Homes; Licensed Homes; and Child Care Assistance Approved Relative Providers and Approved In-Home Providers.

1. Number of deaths in a child care setting: None (0)

<i>Facility Type</i>	<i>Total Facilities in FFY21</i>	<i>Total Capacity for Facilities in FFY21</i>	<i>Number of Deaths</i>
Licensed Center	220	14,767	0
Licensed Group Homes	56	650	0
Licensed Homes	182	1356	0
Approved Relative and Approved In-Home	12	47	0

2. Number of serious injuries in a child care setting: Seventeen (17)

In Federal Fiscal Year 2021 (FFY21), out of 470 child care facilities with a total capacity of 16,820 children, there were 61 reported injuries statewide in a child care facility. Of the total 61 reported injuries statewide, 17 injuries (28%) were defined as a “serious injury”.

<i>Facility Type</i>	<i>Total Facilities in FFY21</i>	<i>Total Capacity for Facilities in FFY21</i>	<i>Number of Injuries</i>
Licensed Center	220	14,767	55
Licensed Group Homes	56	650	3
Licensed Homes	182	1356	3
Approved Relative and Approved In-Home	12	47	0

3. Number of incidences of substantiated child abuse in a child care setting: None (0)

<i>Facility Type</i>	<i>Total Facilities in FFY21</i>	<i>Total Capacity for Facilities in FFY21</i>	<i>Number of Substantiated Child Abuse</i>
Licensed Center	220	14,767	0
Licensed Group Homes	56	650	0
Licensed Homes	182	1356	0
Approved Relative and Approved In-home	12	47	0

**AGGREGATE DATA REGARDING THE NUMBER OF DEATHS, INJURIES AND
SUBSTANTIATED ABUSE IN A CHILD CARE SETTING**

OCTOBER 1, 2019 - SEPTEMBER 30, 2020 (Federal Fiscal Year 2020)

The State of Alaska Child Care Licensing 7 AAC 57 and Child Care Assistance Program 7 AAC 41 regulations require all licensed child care facilities and exempt providers to report injuries requiring medical attention. Medical attention is defined as attention by medical personnel outside of the child care premises. Exempt providers include Approved Relative and Approved In-home. The State of Alaska has defined “serious injury” as the following:

- Injury requiring surgery, excluding stitches;
- Injury requiring admittance to hospital;
- Choking or unexpected breathing problems;
- Unconsciousness;
- Concussion;
- Poisoning;
- Medication overdose;
- Broken bone;
- Severe head or neck injury;
- Chemical ingestion or contact in eye(s), mouth, or skin;
- Severe burn;
- Allergic reaction requiring administration of Epi-Pen; and
- Seizures.

The data in this report is based on all provider types regulated in the State of Alaska: Licensed Centers; Licensed Group Homes; Licensed Homes; and Child Care Assistance Approved Relative Providers and Approved In-Home Providers.

1. Number of deaths in a child care setting: None (0)

<i>Facility Type</i>	<i>Total Facilities in FFY20</i>	<i>Total Capacity for Facilities in FFY20</i>	<i>Number of Deaths</i>
Licensed Center	238	14,587	0
Licensed Group Homes	62	710	0
Licensed Homes	200	1476	0
Approved Relative and Approved In-Home	21	70	0

2. Number of serious injuries in a child care setting: Eighteen (18)

In Federal Fiscal Year 2020 (FFY20), out of 521 child care facilities with a total capacity of 16,843 children, there were 53 reported injuries statewide in a child care facility. Of the total 53 reported injuries statewide, 18 injuries (34%) were defined as a “serious injury”.

<i>Facility Type</i>	<i>Total Facilities in FFY20</i>	<i>Total Capacity for Facilities in FFY20</i>	<i>Number of Injuries</i>
Licensed Center	238	14,587	49
Licensed Group Homes	62	710	2
Licensed Homes	200	1476	2
Approved Relative and Approved In-Home	21	70	0

3. Number of incidences of substantiated child abuse in a child care setting: None (0)

<i>Facility Type</i>	<i>Total Facilities in FFY20</i>	<i>Total Capacity for Facilities in FFY20</i>	<i>Number of Substantiated Child Abuse</i>
Licensed Center	238	14,587	0
Licensed Group Homes	62	710	0
Licensed Homes	200	1476	0
Approved Relative and Approved In-Home	21	70	0
