MAKE YOUR OWN TURKEY!

Let's Make a Handprint Turkey!

1. Place your hand flat on a piece of paper with your fingers spread apart.
2. Trace around your hand using a pencil or crayon.
3. Draw: a small circle for the turkey's eye, a beak, and a wattle.
4. Color each finger a different color to make beautiful turkey feathers.
5. Add legs and any fun decorations you like!

Great job! You've made your very own handprint turkey!

HAPPY THANKSGIVING!
