Five things to know about Medication for Addiction Treatment (MAT)

MAT is not trading one drug for another.

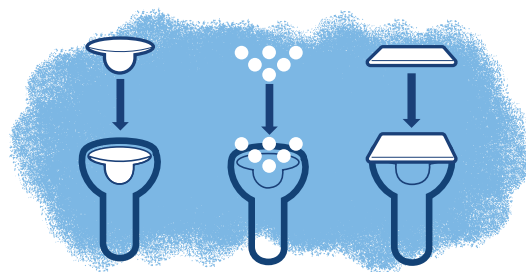

1

There are several medications that:

- Ease withdrawal symptoms
- Reduce cravings
- Stabilize recovery

2

They change how the brain reacts to opioids.

3

The medications can be used alone or as part of an overall treatment plan.

4

They support recovery for many substances including opioids, alcohol, and nicotine.

5

Your provider can help you find treatment options that are right for you.
