Milestone Moments

You can follow your child's development by watching how he or she plays, learns, speaks, and acts.

Look inside for milestones to watch for in your child and how you can help your child learn and grow.

Department of Health and Social Services

1-877-477-3659 | 1-907-269-8442 www.earlyintervention.alaska.gov

Milestone Moments

How your child plays, learns, speaks, and acts offers important clues about your child's development. Developmental milestones are things most children can do by a certain age.

The lists that follow have milestones to look for when your child is:

2 Months page	3-6
4 Months page	7–10
6 Months page	11-14
9 Months page	15-18
1 Yearpage	19-22
18 Months page	23-26
2 Years page	27-30
3 Years page	31-34
4 Yearspage	35-38
5 Years page	39-42

Check the milestones your child has reached at each age.

Take this with you and talk with your child's doctor at every visit about the milestones your child has reached and what to expect next.

> For more information, call 1-907-269-8442 1-877-477-3659 (Outside Anchorage)

Your Baby at 2 Months

What babies do at this age – and how you can help their development.

Social/Emotional	
Can briefly calm himself (may bring hands to mouth and suck on hand)	Begins to smile at peopleTries to look at parent
Language/Communication	
Coos, makes gurgling sounds	Turns head toward sounds
Cognitive (learning, thinking, prob	olem solving)
Pays attention to facesBegins to follow things with eyes and recognize people at a distance	Begins to act bored (cries, fussy) if activity doesn't change

- Cuddle, talk, and play with your baby during feeding, dressing, and bathing.
- Help your baby learn to calm herself. It's okay for her to suck on her fingers.
- Begin to help your baby get into a routine, such as sleeping at night more than in the day, and have regular schedules.
- Getting in tune with your baby's likes and dislikes can help you feel more comfortable and confident.
- Act excited and smile when your baby makes sounds.
- Copy your baby's sounds sometimes, but also use clear language.
- Pay attention to your baby's different cries so that you learn to know what he wants.
- Talk, read, and sing to your baby.
- ✓ Play peek-a-boo. Help your baby play peek-a-boo, too.
- Place a baby-safe mirror in your baby's crib so she can look at herself.

Your Baby at 2 Months

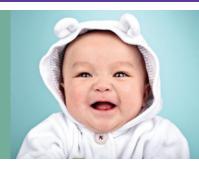

movement/Physical Development	
Can hold head up and begins to push up when lying on tummy	Makes smoother movements with arms and legs
Act early by talking to your child's	doctor if your child:
Doesn't respond to loud soundsDoesn't watch things as they moveDoesn't smile at people	Doesn't bring hands to mouthCan't hold head up when pushing up when on tummy

- Hold and talk to your baby; smile and be cheerful while you do.
- Look at pictures with your baby and talk about them.
- Lay your baby on his tummy when he is awake and put toys near him.
- Encourage your baby to lift his head by holding toys at eye level in front of him.
- Hold a toy or rattle above your baby's head and encourage her to reach for it.
- Hold your baby upright with his feet on the floor. Sing or talk to your baby as he is upright.

Tell your child's doctor or nurse if you notice any of these signs of possible developmental delay for this age, and talk with someone in your community who is familiar with services for young children in your area, such as your state's public early intervention program. For more information, call 907-269-8442 or 1-877-477-3659.

Your Baby at 4 Months

What babies do at this age – and how you can help their development.

	S	m	iles	S	po	nt	ane	ous	sly,	esp	eci	ally
	a	t p	eo	ple	9							

Social/Emotional

- Copies some movements and facial expressions, like smiling or frowning
- Likes to play with people and might cry when playing stops
- Waves arms and kicks legs to show excitement

Language/Communication

- Coos ("ooo" or "aaa") when you talk to him
- Babbles with expression and copies sounds he hears
- Cries in different ways to show hunger, pain, or being tired

- Hold and talk to your baby; smile and be cheerful while you do.
- Set steady routines for sleeping and feeding.
- Pay close attention to what your baby likes and doesn't like; you will know how best to meet his needs and what you can do to make your baby happy.
- Copy your baby's sounds.
- Act excited and smile when your baby makes sounds.
- Have quiet play times when you read or sing to your baby.
- Give age-appropriate toys to play with, such as rattles or colorful pictures.
- Play games such as peek-a-boo.
- Provide safe opportunities for your baby to reach for toys and explore his surroundings.
- Put toys near your baby so that she can reach for them or kick her feet.

Your Baby at 4 Months

Cognitive (learning, thinking, prob	lem solving)
 Lets you know if she is happy or sad Responds to affection Reaches for toy with one hand Uses hands and eyes together, such as in playing peek-a-boo 	 Follows moving things with eyes from side to side Watches faces closely Recognizes familiar people and things at a distance
Movement/Physical Development	
 ☐ Holds head steady, unsupported ☐ Pushes down on legs when feet are on a hard surface ☐ Brings hands to mouth 	Can hold a toy and shake it and swing at dangling toysWhen lying on stomach, pushes up to elbows
Act early by talking to your child's	doctor if your child:
 Doesn't watch things as they move Doesn't smile at people Can't hold head steady Doesn't coo or make sounds Doesn't bring things to mouth 	 Doesn't push down with legs when feet are placed on a hard surface Has trouble moving one or both eyes in all directions

- Put toys or rattles in your baby's hand and help him to hold them.
- Hold your baby upright with feet on the floor, and sing or talk to your baby as she "stands" with support.

Talking with other parents can be a great resource.

Call Stone Soup Group to learn how other Alaskan parents are getting the support and direction they need.

907-561-3701 (Anchorage) 1-877-786-7327 (Outside Anchorage)

Your Baby at 6 Months

What babies do at this age – and how you can help their development.

Social/Emotional	
Knows familiar faces and begins to know if someone is a strangerLikes to play with others, especially parents	Responds to other people's emotions and often seems happy Likes to look at self in a mirror
Language/Communication	
 Responds to sounds by making sounds Strings vowels together when babbling ("ah," "eh," "oh") and likes taking turns with parent while making sounds 	Copies soundsResponds to own nameBegins to say consonant sounds (jabbering with "m," "b")

- Play on the floor with your baby every day.
- Learn to read your baby's moods. If he's happy, keep doing what you are doing. If he's upset, take a break and comfort your baby.
- Show your baby how to comfort herself when she's upset. She may suck on her fingers to self soothe.
- ✓ Use "reciprocal" play—when he smiles, you smile; when he makes sounds, you copy them.
- Repeat your child's sounds and say simple words with those sounds. For example, if your child says "bah," say "bottle" or "book."
- Read books to your child every day. Praise her when she babbles and "reads" too.
- When your baby looks at something, point to it and talk about it.
- ✓ When he drops a toy on the floor, pick it up and give it back. This game helps him learn cause and effect.
- Read colorful picture books to your baby.

Your Baby at 6 Months

Cognitive (learning, thinking, prob	lem solving)
Looks around at things nearbyShows curiosity about things and tries to get things that are out of reach	Brings things to mouthBegins to pass things from one hand to the other
Movement/Physical Development	
Rolls over in both directions (front to back, back to front)When standing, supports weight on legs and might bounce	 Begins to sit without support Rocks back and forth, sometimes crawling backward before moving forward
Act early by talking to your child's	doctor if your baby:
 Doesn't try to get things that are in reach Shows no affection for caregivers Doesn't respond to sounds around him Has difficulty getting things to 	 Doesn't make vowel sounds ("ah", "eh", "oh") Doesn't roll over in either direction Doesn't laugh or make squealing sounds

- Point out new things to your baby and name them.
- Show your baby bright pictures in a magazine and name them.
- Hold your baby up while she sits or support her with pillows. Let her look around and give her toys to look at while she balances.
- Put your baby on his tummy or back and put toys just out of reach. Encourage him to roll over to reach the toys.

Tell your child's doctor or nurse if you notice any of these signs of possible developmental delay for this age, and talk with someone in your community who is familiar with services for young children in your area. such as your state's public early intervention program. For more information, call 907-269-8442 or 1-877-477-3659.

Your Baby at 9 Months

What babies do at this age – and how you can help their development.

Social/Emotional	
	☐ Recognizes family members☐ Has favorite toys
Language/Communication	
 Makes a lot of different sounds like "mamamama" and "bababababa" Expresses emotion while making sounds 	Understands "no"Copies sounds of othersUses fingers to point at things

- Pay attention to the way he reacts to new situations and people; try to continue to do things that make your baby happy and comfortable.
- As she moves around more, stay close so she knows that you are near.
- Continue with routines; they are especially important now.
- Play games with "my turn, your turn."
- Say what you think your baby is feeling. For example, say, "You are so sad, let's see if we can make you feel better."
- Describe what your baby is looking at; for example, "red, round ball."
- Talk about what your baby wants when he points at something.
- Copy your baby's sounds and words.
- Ask for behaviors that you want. For example, instead of saying "don't stand," say "time to sit."
- Teach cause-and-effect by rolling balls back and forth, pushing toy cars and trucks, and putting blocks in and out of a container.

Your Baby at 9 Months

Cognitive (learning, thinking, prob	Nom colving)
 □ Watches the path of something as it falls □ Looks for things he sees you hide □ Plays peek-a-boo □ Transfers things smoothly from one hand to the other Movement/Physical Development 	 Experiments with simple cause-and-effect (banging, rattling, dropping things) Puts things in her mouth Picks up things like cereal o's between thumb and index finger
Stands, holding on Sits without support Crawls	Can get into sitting position Pulls to stand
Act early by talking to your child's	doctor if your child:
 Doesn't bear weight on legs with support Doesn't sit with help Doesn't babble ("mama", "baba", "dada") Doesn't play any games involving back-and-forth play 	 Doesn't respond to own name Doesn't seem to recognize familiar people Doesn't look where you point Doesn't transfer toys from one hand to the other

- ✓ Play peek-a-boo and hide-and-seek.
- Read and talk to your baby.
- Provide lots of room for your baby to move and explore in a safe area.
- Put your baby close to things that she can pull up on safely.

Talking with other parents can be a great resource. Call Stone Soup Group to learn how other Alaskan parents are getting the support and direction they need.

907-561-3701 (Anchorage) 1-877-786-7327 (Outside Anchorage)

The American Academy of Pediatrics recommends that all children be screened for general development at the 9-month visit. Ask your child's doctor about your child's developmental screening.

Your Child at 1 Year

What children do at this age - and how you can help their development.

Social/Emotional	
☐ Is shy or nervous with strangers ☐ Cries when mom or dad leaves ☐ Has favorite things and people ☐ Shows fear in some situations ☐ Hands you a book when he wants to hear a story	 Repeats sounds or actions to get attention Puts out arm or leg to help with dressing Plays games such as "peek-a-boo" and "pat-a-cake"
Language/Communication	
 Responds to simple spoken requests Uses simple gestures, like shaking head "no" or waving "bye-bye" Makes sounds with changes in tone (sounds more like speech) 	Says "mama" and "dada" and exclamations like "uh-oh!"Tries to say words you say

- Give your child time to get to know a new caregiver. Bring a favorite toy, stuffed animal, or blanket to help comfort your child.
- ✓ In response to unwanted behaviors, say "no" firmly. Do not yell, spank, or give long explanations. A time out for 30 seconds to 1 minute might help redirect your child.
- Give your child lots of hugs, kisses, and praise for good behavior.
- Spend a lot more time encouraging wanted behaviors than punishing unwanted behaviors (4 times as much encouragement for wanted behaviors as redirection for unwanted behaviors).
- ✓ Talk to your child about what you're doing. For example, "Mommy is washing your hands with a washcloth."
- Read with your child every day. Have your child turn the pages. Take turns labeling pictures with your child.
- Build on what your child says or tries to say, or what he points to. If he points to a truck and says "t" or "truck," say, "Yes, that's a big, blue truck."

Your Child at 1 Year

Cognitive (learning, thinking, prob	lem solving)
 Explores things in different ways, like shaking, banging, throwing Finds hidden things easily Looks at the right picture or thing when it's named Copies gestures Puts things in a container, takes things out of a container 	Bangs two things together Starts to use things correctly; for example, drinks from a cup, brushes hair Lets things go without help Pokes with index (pointer) finger Follows simple directions like "pick up the toy"
Movement/Physical Development	
Gets to a sitting position without helpPulls up to stand, walks holding on to furniture ("cruising")	May take a few steps without holding onMay stand alone
Act early by talking to your child's	doctor if your child:
 Doesn't crawl Can't stand when supported Doesn't search for things that she sees you hide Doesn't point to things 	 Doesn't learn gestures like waving or shaking head Doesn't say single words like "mama" or "dada" Loses skills he once had

- Give your child crayons and paper, and let your child draw freely. Show your child how to draw lines up and down and across the page. Praise your child when she tries to copy them.
- Play with blocks, shape sorters, and other toys that encourage your child to use his hands.
- Hide small toys and other things and have your child find them.
- Ask your child to label body parts or things you see while driving in the car.
- Sing songs with actions, like "The Itsy Bitsy Spider" and "Wheels on the Bus." Help your child do the actions with you.
- Give your child pots and pans or a small musical instrument like a drum or cymbals. Encourage your child to make noise.
- Provide lots of safe places for your toddler to explore. (Toddler-proof your home. Lock away products for cleaning, laundry, lawn care, and car care. Use a safety gate and lock doors to the outside and the basement.)
- Give your child push toys like a wagon or "kiddie push car."

Tell your child's doctor or nurse if you notice any of these signs of possible developmental delay for this age, and talk with someone in your community who is familiar with services for young children in your area. such as your state's public early intervention program. For more information, call 907-269-8442 or 1-877-477-3659.

Your Child at 18 Months

What children do at this age - and how you can help their development.

Social/Emotional	
 Recognizes himself in mirror Likes to hand things to others as play May have temper tantrums May be afraid of strangers Shows affection to familiar people Has a full range of emotions, such as happy, sad, angry 	 Plays simple pretend, such as feeding a doll Clings to caregivers in new situations Points to show others something interesting Explores alone but with parent close by
Language/Communication	
Understands almost everything said to herPoints to show someone what he wants	Says several single wordsSays and shakes head "no"Points to things in a book

- Provide a safe, loving environment. It's important to be consistent and predictable.
- Praise good behaviors more than you punish bad behaviors (use only very brief time outs).
- Describe her emotions. For example, say, "You are happy when we read this book."
- Encourage pretend play.
- Encourage empathy. For example, when he sees a child who is sad, encourage him to hug or pat the other child.
- Read books and talk about the pictures using simple words.
- Copy your child's words.
- Use words that describe feelings and emotions.
- Use simple, clear phrases.
- Ask simple questions.

Your Child at 18 Months

Cognitive (learning, thinking, prob	lem solving)	
 Knows what ordinary things are for; for example, telephone, brush, spoon Solves a puzzle with circular puzzle pieces Shows interest in a doll or stuffed animal by pretending to feed 	Points to get the attention of others Scribbles on his own Can follow 1-step verbal commands without any gestures; for example, sits when you say "sit down"	
Movement/Physical Development		
	☐ Drinks from a cup☐ Eats with a spoon	
Act early by talking to your child's doctor if your child:		
 Doesn't point to show things to others Can't walk Doesn't know what familiar things are for Doesn't copy others 	 Doesn't gain new words Doesn't have at least 6 words Doesn't notice or mind when a caregiver leaves or returns Loses skills he once had 	

- Hide things under blankets and pillows and encourage him to find them.
- Play with blocks, balls, puzzles, books, and toys that teach cause and effect and problem solving.
- Name pictures in books and body parts.
- Provide toys that encourage pretend play; for example, dolls, play telephones.
- Provide safe areas for your child to walk and move around in.
- Provide toys that she can push or pull safely.
- Provide balls for her to kick, roll, and throw.
- Encourage him to drink from his cup and use a spoon, no matter how messy.
- Blow bubbles and let your child pop them.

Talking with other parents can be a great resource. Call Stone Soup Group to learn how other Alaskan parents are getting the support and direction they need.

907-561-3701 (Anchorage) 1-877-786-7327 (Outside Anchorage)

The American Academy of Pediatrics recommends that all children be screened for general development and autism at the 18-month visit. Ask your child's doctor about your child's developmental screening.

Your Child at 2 Years

What children do at this age - and how you can help their development.

Social/Emotional	
 Copies others, especially adults and older children Gets excited when with other children Shows more and more independence 	 Shows defiant behavior (doing what he has been told not to) Plays mainly beside other children, but is beginning to include other children, such as in chase games
Language/Communication	
 Points to things or pictures when they are named Knows names of familiar people and body parts Says sentences with 2 to 4 words 	 Follows simple instructions Repeats words overheard in conversation Points to things in a book

- Encourage your child to help with simple chores at home, like sweeping and making dinner. Praise your child for being a good helper.
- At this age, children still play next to (not with) each other and don't share well. For play dates, give the children lots of toys to play with. Watch the children closely and step in if they fight or argue.
- Give your child attention and praise when he follows instructions. Limit attention for defiant behavior. Spend a lot more time praising good behaviors than punishing bad ones.
- Teach your child to identify and say body parts, animals, and other common things.
- Do not correct your child when he says words incorrectly. Rather, say it correctly. For example, "That is a ball."
- Encourage your child to say a word instead of pointing. If your child can't say the whole word ("milk"), give her the first sound ("m") to help. Over time, you can prompt your child to say the whole sentence — "I want milk "

Your Child at 2 Years

Compiling (loopping thinking push	low colving)	
Cognitive (learning, thinking, prob	iem solving)	
Finds things even when hidden under two or three covers	Might use one hand more than the other	
 ☐ Begins to sort shapes and colors ☐ Points to one body part ☐ Plays simple make-believe games ☐ Builds towers of 4 or more blocks 	 Follows two-step instructions such as "Pick up your shoes and put them in the closet." Names items in a picture book such as a cat, bird, or dog 	
Movement/Physical Development		
 ☐ Stands on tiptoe ☐ Kicks a ball ☐ Begins to run ☐ Climbs onto and down from furniture without help 	 Walks up and down stairs with help Throws ball overhand Makes or copies straight lines and circles 	
Act early by talking to your child's doctor if your child:		
 Doesn't know what to do with common things, like a brush, phone, fork, spoon Doesn't copy actions and words Doesn't follow simple instructions 	 Doesn't use 2-word phrases (for example, "drink milk") Doesn't walk steadily Loses skills she once had 	

- Hide your child's toys around the room and let him find them.
- Help your child do puzzles with shapes, colors, or farm animals. Name each piece when your child puts it in place.
- Encourage your child to play with blocks. Take turns building towers and knocking them down.
- Do art projects with your child using crayons, paint, and paper. Describe what your child makes and hang it on the wall or refrigerator.
- Ask your child to help you open doors and drawers and turn pages in a book or magazine.
- Once your child walks well, ask her to carry small things for you.
- Kick a ball back and forth with your child. When your child is good at that. encourage him to run and kick.
- Take your child to the park to run and climb on equipment or walk on nature trails. Watch your child closely.

Talking with other parents can be a great resource. Call Stone Soup Group to learn how other Alaskan parents are getting the support and direction they need.

907-561-3701 (Anchorage) 1-877-786-7327 (Outside Anchorage)

The American Academy of Pediatrics recommends that all children be screened for general development and autism at the 24-month visit. Ask your child's doctor about your child's developmental screening.

Your Child at 3 Years

What children do at this age - and how you can help their development.

Social/Emotional	
 Copies adults and friends Shows affection for friends without prompting Takes turns in games Cares about others' feelings 	 Understands the idea of "mine" and "his" or "hers" Shows a wide range of emotions Separates easily from mom and dad Gets upset with major changes in routine
Language/Communication	
 ☐ Follows instructions with 2 or 3 steps ☐ Can name most familiar things ☐ Understands words like "in," "on," and "under" ☐ Says first name, age, and sex ☐ Names a friend 	 □ Talks well enough for strangers to understand most of the time □ Says words like "I," "me," "we," and "you" and some plurals (cars, dogs, cats) □ Carries on a conversation using 2 to 3 sentences

- Go to play groups with your child or other places where there are other children, to encourage getting along with others.
- Work with your child to solve the problem when he is upset.
- ▼ Talk about your child's emotions. For example, say, "I can tell you feel mad because you threw the puzzle piece." Encourage your child to identify feelings in books.
- Set rules and limits for your child, and stick to them. If your child breaks a rule, give him a time out for 30 seconds to 1 minute in a chair or in his room. Praise your child for following the rules.
- Give your child instructions with 2 or 3 steps. For example, "Go to your room and get your shoes and coat."
- Read to your child every day. Ask your child to point to things in the pictures and repeat words after you.
- Give your child an "activity box" with paper, crayons, and coloring books. Color and draw lines and shapes with your child.

Your Child at 3 Years

	olem solving)
 Can work toys with buttons, levers, and moving parts Plays make-believe with dolls, animals, and people Does puzzles with 3 or 4 pieces Understands what "two" means 	 Copies a circle with pencil or crayon Turns book pages one at a time Builds towers of more than 6 blocks Screws and unscrews jar lids or turns door handle
Movement/Physical Development	
☐ Climbs well☐ Runs easily☐ Pedals a tricycle (3-wheel bike)	Walks up and down stairs, one foot on each step
Act early by talking to your child's	doctor if your child:

- Play matching games. Ask your child to find objects in books or around the house that are the same.
- Play counting games. Count body parts, stairs, and other things you use or see every day.
- Hold your child's hand going up and down stairs. When she can go up and down easily, encourage her to use the railing.
- Play outside with your child. Go to the park or hiking trail. Allow your child to play freely and without structured activities.

Tell your child's doctor or nurse if you notice any of these signs of possible developmental delay for this age, and talk with someone in your community who is familiar with services for young children in your area, such as your local public school. For more information, call 907-269-8442 or 1-877-477-3659.

Your Child at 4 Years

What children do at this age - and how you can help their development.

Social/Emotional	
 Enjoys doing new things Is more and more creative with make-believe play Would rather play with other children than by himself Gets scared easily by unfamiliar things 	 Plays cooperatively Plays "Mom" or "Dad" Often can't tell what's real and what's make-believe Describes what she likes and what she is interested in
Language/Communication	
Tells storiesSings a song or says a poem from memory such as the "Itsy Bitsy Spider" or the "Wheels on the Bus"	Knows some basic rules of grammar, such as correctly using "he" and "she"Can say first and last name

Talk with your child's doctor at every visit about the milestones your child has reached and what to expect next.

How you can help your child learn and grow

- ✓ Play make-believe with your child. Let her be the leader and copy what she is doing.
- Suggest your child pretend play an upcoming event that might make him nervous, like going to preschool or staying overnight at a grandparent's house.
- Give your child simple choices whenever you can. Let your child choose what to wear, play, or eat for a snack, Limit choices to 2 or 3.
- During play dates, let your child solve her own problems with friends, but be nearby to help out if needed.
- Encourage your child to use words, share toys, and take turns playing games of one another's choice.
- Give your child toys to build imagination, like dress-up clothes, kitchen sets, and blocks.
- Use good grammar when speaking to your child. Instead of "Mommy wants you to come here," say, "I want you to come here."

Your Child at 4 Years

Cognitive (learning, thinking, probl	em solving)
 Says the word for some colors and some numbers Understands the idea of counting Starts to understand time Remembers parts of a story Draws a person with 2 to 4 body parts 	 Uses scissors Understands the idea of "same" and "different" Names four colors Plays board or card games Tells you what he thinks is going to happen next in a book
Movement/Physical Development	
Hops and stands on one foot up to 2 secondsPours, cuts with supervision, and mashes own food	Catches a bounced ball most of the time
Act early by talking to your child's	doctor if your child:
Can't jump in place Has trouble scribbling Shows no interest in interactive games or make-believe Ignores other children or doesn't respond to people outside the family	 Resists dressing, sleeping, and using the toilet Doesn't understand "same" and "different" Doesn't use "me" and "you" correctly Doesn't follow 3-part commands

How you can help your child learn and grow

- Use words like "first," "second," and "finally" when talking about everyday activities. This will help your child learn about sequence of events.
- Take time to answer your child's "why" questions. If you don't know the answer, say "I don't know," or help your child find the answer in a book, on the Internet, or from another adult.
- When you read with your child, ask him to tell you what happened in the story as you go.
- Say colors in books, pictures, and things at home. Count common items. like the number of snack crackers, stairs, or toy trains.
- Teach your child to play outdoor games like tag, follow the leader, and duck, duck, goose.
- Play your child's favorite music and dance with your child. Take turns copying each other's moves.

Can't retell a favorite story	Loses skills he once had
Speaks unclearly	

Tell your child's doctor or nurse if you notice any of these signs of possible developmental delay for this age, and talk with someone in your community who is familiar with services for young children in your area, such as your local public school. For more information, call 907-269-8442 or 1-877-477-3659

Your Child at 5 Years

What children do at this age – and how you can help their development.

Social/Emotional	
 Wants to please friends Wants to be like friends More likely to agree with rules Likes to sing, dance, and act Shows concern and sympathy for others Is aware of gender 	 Can tell what's real and what's make-believe Shows more independence (for example, may visit a next-door neighbor by himself Is sometimes demanding and sometimes very cooperative
Language/Communication	
Speaks very clearlyTells a simple story using full sentences	Uses future tense; for example, "Grandma will be here."Says name and address

Talk with your child's doctor at every visit about the milestones your child has reached and what to expect next.

How you can help your child learn and grow

- Continue to arrange play dates, trips to the park, or play groups. Give your child more freedom to choose activities to play with friends, and let your child work out problems on her own.
- Your child might start to talk back or use profanity (swear words) as a way to feel independent. Do not give a lot of attention to this talk, other than a brief time out. Instead, praise your child when he asks for things nicely and calmly takes "no" for an answer.
- This is a good time to talk to your child about safe touch. No one should touch "private parts" except doctors or nurses during an exam or parents when they are trying to keep the child clean.
- Teach your child her address and phone number.
- When reading to your child, ask him to predict what will happen next in the story.
- Encourage your child to "read" by looking at the pictures and telling the story.

Your Child at 5 Years

Cognitive (learning, thinking, prob	lem solving)
 Counts 10 or more things Can draw a person with at least 6 body parts Copies a triangle and other shapes 	Can print some letters or numbers Can tell a simple story Knows about things used every day, like money and food
Movement/Physical Development	
 Stands on one foot for 10 seconds or longer Hops; may be able to skip Can do a somersault 	 Uses a fork and spoon and sometimes a table knife Can use the toilet on her own Swings and climbs
Act early by talking to your child's	doctor if your child:
 Doesn't show a wide range of emotions Shows extreme behavior (unusually fearful, aggressive, shy, or sad) Unusually withdrawn and not active Is easily distracted, has trouble 	 Doesn't respond to people, or responds only superficially Can't tell what's real and what's make-believe Doesn't play a variety of games and activities Can't give first and last name
focusing on one activity for more than 5 minutes	Doesn't draw pictures

How you can help your child learn and grow

- Teach your child time concepts like morning, afternoon, evening, today, tomorrow, and yesterday. Start teaching the days of the week.
- Explore your child's interests in your community. For example, if your child loves animals, visit the zoo or petting farm. Go to the library or look on the Internet to learn about these topics.
- Keep a handy box of crayons, paper, paint, child scissors, and paste. Encourage your child to draw and make art projects with different supplies.
- Play with toys that encourage your child to put things together.
- Teach your child how to pump her legs back and forth on a swing.
- Help your child climb on the monkey bars.
- Go on walks with your child, do a scavenger hunt in your neighborhood or park, help him ride a bike with training wheels (wearing a helmet).

Doesn't talk about daily activities or experiences	Can't brush teeth, wash and dry hands, or get undressed
Doesn't use plurals or past	without help
tense properly	Loses skills he once had
Talking with other parents can be a Group to learn how other Alaskan p direction they need.	-
