Moving Home Voucher Program

Program Overview for Sponsoring Agencies

Introduction & Background

This program began as a response to a need for affordable housing with support services for individuals with disabilities transitioning from homelessness or institutional settings. Permanent Supportive Housing (PSH) is characterized by availability of support services in integrated community settings coupled with safe and affordable housing. Through this partnership between the Department of Health (DOH) and Alaska Housing Finance Corporation (AHFC), individuals will be able to access rental subsidies to pair with existing DOH-funded community support services. These vouchers are *not* time limited; however, applicants are subject to screening through the AHFC Housing Choice Voucher Program Administrative Plan. Applicants that fail to meet AHFC's screening criteria will be eligible for an informal review process and exceptions *may* be made on a case-by-case basis.

Program Eligibility & Prioritization

To be eligible for this program, a person must meet the following criteria:

- a) Meet the U.S. Department of Housing and Urban Development's definition of a disabled family (24 CFR 5.403) or be an Alaska Mental Health Trust Authority beneficiary; AND
- b) Demonstrate qualification as low-income, defined as less than 50 percent of Area Median Income; AND
- c) Be eligible for community-based, long-term services as provided through Medicaid waivers, Medicaid state plan options, state funded services, or other appropriate services related to the target population [i.e. Division of Behavioral Health (DBH) funded Community Behavioral Health Services Provider, or Senior and Disabilities Services (SDS) funded provider]; AND
- d) Be currently homeless, be at risk of homelessness, be precariously housed, or lack the resources necessary to obtain or retain permanent housing.

- Provide ongoing access to a continuum of services relevant to client needs to maintain housing
- Provide active outreach and engagement if the client declines supportive housing services
- Develop a client-centered support service plan
- Provide a check-in at the client's home, at minimum once per month to ensure long-term tenancy

Supportive services can also include: medical and psychological case management; alcohol and substance abuse services; benefits advocacy and income support assistance such as SOAR, SSI, general assistance, food stamps, Medicaid, Social Security, etc.; money management/payee services; employment services such as job training and job placement; and assistance in obtaining other resources and support for consumer/tenants such as transportation, legal assistance, AIDS related services, health care, education services, etc. These services can be provided directly by the service provider or by local arrangement with other service providers.
