

Spending Plan: Coronavirus Response and Relief Supplemental Appropriations Act & American Rescue Plan Act of 2021

Total amount: \$95,524,397

Preliminary estimate that will necessitate adjustments during implementation

IMPROVE AFFORDABILITY & SUBSIDY PROGRAM \$28,657,319

30%

Funding source- ARPA:

- Hire a contractor to review and improve the Child Care Assistance Program to make it more accessible and supportive for parents and providers which will inform strategies such as: ***
 - Support parents by covering the cost of co-payments (for a period to be determined)
 - Provide grants to families not typically covered by child care assistance including those utilizing non-traditional care hours and those ineligible due to income, this will be targeted to parents working in the first responder and/or medical fields
 - Increase reimbursement rates to a higher percentile of market rate
 - Improve payment polices
 - Broaden eligibility to child care assistance
 - Update Family Income and Contribution Schedule
 - Provide contracted slots
 - Improve Child Care Grant Program & the Alaska IN! Program
- Pilot a tiered reimbursement initiative for infant and toddler care ***
- Provide financial aid for providers who were not participating in subsidy system prior to Covid-19 pandemic***

INCREASE ACCESS TO LICENSED CARE \$45,336,010

50%

Funding source- ARPA:

- Phase 1 stabilization provides immediate relief to providers and collects information to inform future phases***
 - Additional supports through bonuses provided for non-traditional care hours (designed to serve parents working in the first responder and/or medical fields), Learn & Grow participation, Child Care Assistance Program Participation, serving children with special needs, and serving infants and toddlers.
- Phase 2 stabilization helps providers reach their intended licensed capacity and return to stabilization***
 - Additional supports through bonuses provided for participation in Learn & Grow and the Child Care Assistance Program
- Additional Phases may have built in stabilization practices and requirements
