

AGGREGATE DATA REGARDING THE NUMBER OF DEATHS, INJURIES AND SUBSTANTIATED ABUSE IN A CHILD CARE SETTING

OCTOBER 1, 2018 - SEPTEMBER 30, 2019 (Federal Fiscal Year 2019)

The State of Alaska Child Care Licensing 7 AAC 57 and Child Care Assistance Program 7 AAC 41 regulations require all licensed child care facilities and exempt providers to report injuries requiring medical attention. Medical attention is defined as attention by medical personnel outside of the child care premises. Exempt providers include Approved Non Relative, Approved Relative, and In-home. The State of Alaska has defined “serious injury” as the following:

- Injury requiring surgery, excluding stitches;
- Injury requiring admittance to hospital;
- Choking or unexpected breathing problems;
- Unconsciousness;
- Concussion;
- Poisoning;
- Medication overdose;
- Broken bone;
- Severe head or neck injury;
- Chemical ingestion or contact in eye(s), mouth, or skin;
- Severe burn;
- Allergic reaction requiring administration of Epi-Pen; and
- Seizures.

1. Number of deaths in a child care setting:

None. This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and Parent's Achieving Self-Sufficiency (PASS) I & PASS II/III In-home Providers.

Facility Type	Total Facilities in FFY19	Total Capacity for Facilities in FFY19	Number of Deaths
Licensed Center	234	15,535	0
Licensed Group Homes	61	725	0
Licensed Homes	220	1,637	0
Approved Relative, Approved Non-Relative, & In-home ¹	25	.	0

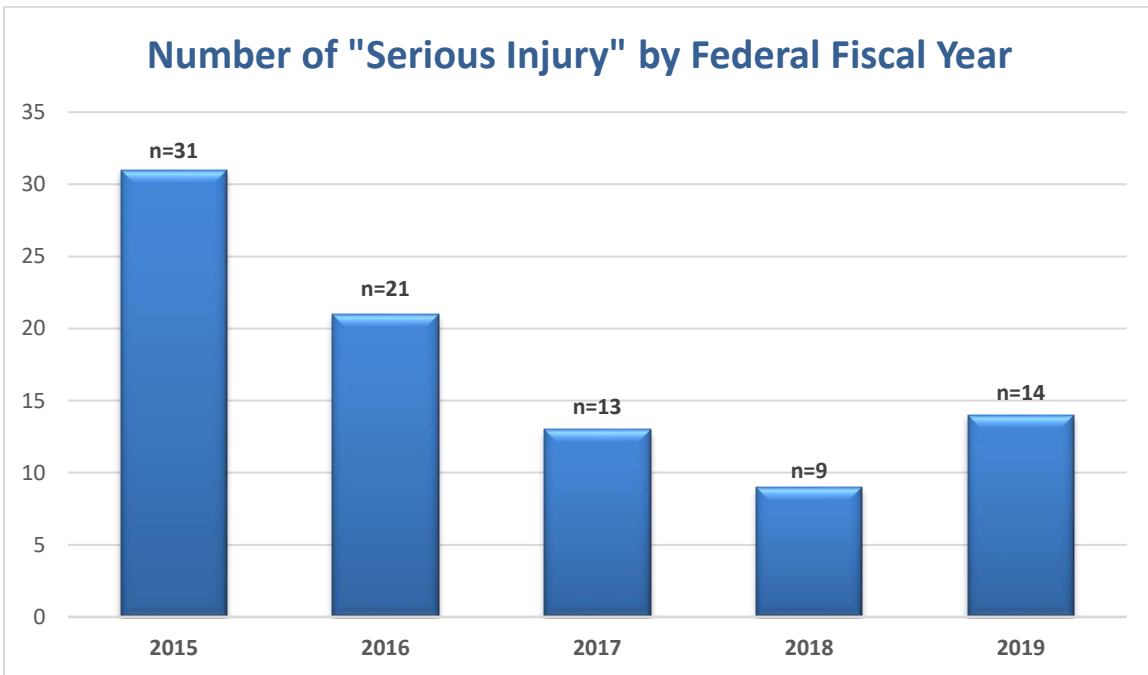

¹ Capacity not provided for Approved Relative, Approved Non-Relative, & In-home providers due to provider type and only authorized to take care of children authorized for a specific family.

2. Number of serious injuries in a child care setting:

This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and PASS I & PASS II/III In-home Providers.

In Federal Fiscal Year 2018 (FFY18), out of a maximum total of 540 child care facilities with a total potential capacity of at least 17,715 children, there were 52 reported injuries statewide in a child care facility. Of the total 52 reported injuries statewide, 14 (27%) injuries were defined as a “serious injury” requiring medical attention.

Facility Type	Total Facilities in FFY19	Total Capacity for Facilities in FFY19	Number of Injuries
Licensed Center	234	15,535	14
Licensed Group Homes	61	725	0
Licensed Homes	220	1,637	0
Approved Relative, Approved Non-Relative, & In-home	25	.	0

3. Number of incidences of substantiated child abuse in a child care setting:

None. This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and PASS I & PASS II/III In-home Providers.

**AGGREGATE DATA REGARDING THE NUMBER OF DEATHS, INJURIES AND
SUBSTANTIATED ABUSE IN A CHILD CARE SETTING**

OCTOBER 1, 2017 - SEPTEMBER 30, 2018 (Federal Fiscal Year 2018)

The State of Alaska Child Care Licensing 7 AAC 57 and Child Care Assistance Program 7 AAC 41 regulations require all licensed child care facilities and exempt providers to report injuries requiring medical attention. Medical attention is defined as attention by medical personnel outside of the child care premises. Exempt providers include Approved Non Relative, Approved Relative, and In-home. The State of Alaska has defined “serious injury” as the following:

- Injury requiring surgery, excluding stitches;
- Injury requiring admittance to hospital;
- Choking or unexpected breathing problems;
- Unconsciousness;
- Concussion;
- Poisoning;
- Medication overdose;
- Broken bone;
- Severe head or neck injury;
- Chemical ingestion or contact in eye(s), mouth, or skin;
- Severe burn;
- Allergic reaction requiring administration of Epi-Pen; and
- Seizures.

1. Number of deaths in a child care setting:

None. This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and Parent's Achieving Self-Sufficiency (PASS) I & PASS II/III In-home Providers.

Facility Type	Total Facilities in FFY18	Total Capacity for Facilities in FFY18	Number of Deaths
Licensed Center	235	15,365	0
Licensed Group Homes	66	789	0
Licensed Homes	237	1,774	0
Approved Relative, Approved Non-Relative, & In-home ²	35	.	0

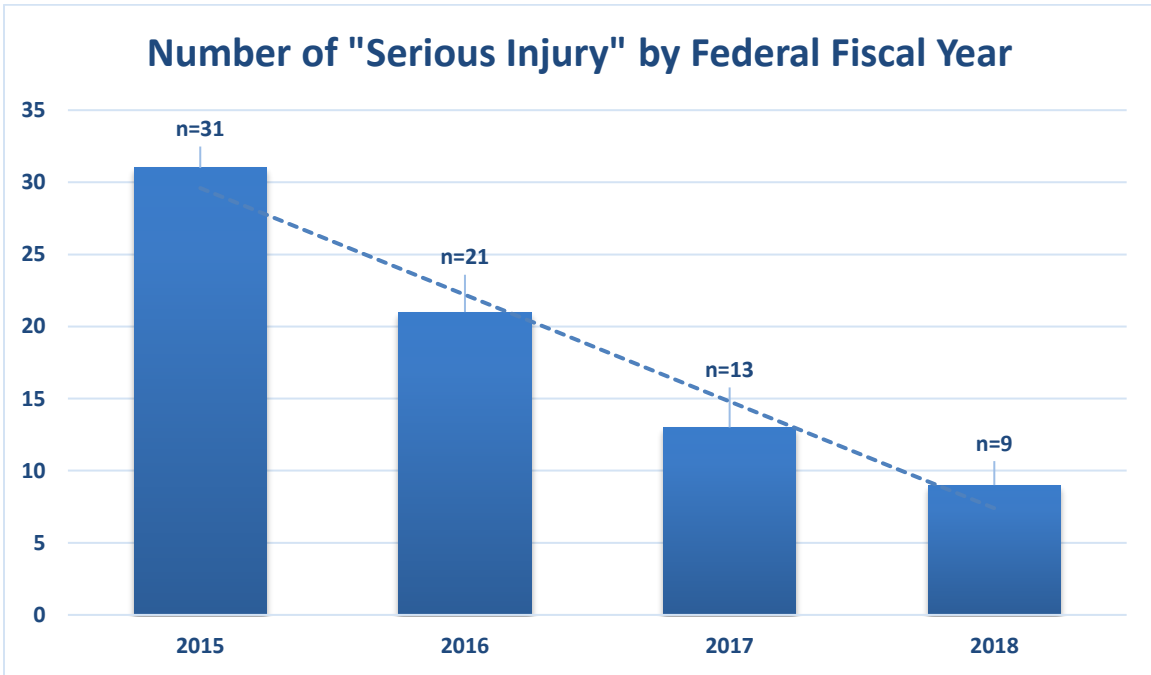

² Capacity not provided for Approved Relative, Approved Non-Relative, & In-home providers due to provider type and only authorized to take care of children authorized for a specific family.

2. Number of serious injuries in a child care setting:

This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and PASS I & PASS II/III In-home Providers.

In Federal Fiscal Year 2018 (FFY18), out of an average total of 573 child care facilities with a total potential capacity of at least 17,928 children, there were 53 reported injuries statewide in a child care facility. Of the total 53 reported injuries statewide, 9 (17%) injuries were defined as a “serious injury” requiring medical attention.

Facility Type	Total Facilities in FFY18	Total Capacity for Facilities in FFY18	Number of Injuries
Licensed Center	235	15,365	9
Licensed Group Homes	66	789	0
Licensed Homes	237	1,774	0
Approved Relative, Approved Non-Relative, & In-home	35	.	0

3. Number of incidences of substantiated child abuse in a child care setting:

None. This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and PASS I & PASS II/III In-home Providers.

**AGGREGATE DATA REGARDING THE NUMBER OF DEATHS, INJURIES AND
SUBSTANTIATED ABUSE IN A CHILD CARE SETTING**

OCTOBER 1, 2016 - SEPTEMBER 30, 2017 (Federal Fiscal Year 2017)

The State of Alaska Child Care Licensing 7 AAC 57 and Child Care Assistance Program 7 AAC 41 regulations require all licensed child care facilities and exempt providers to report injuries requiring medical attention. Medical attention is defined as attention by medical personnel outside of the child care premises. Exempt providers include Approved Non Relative, Approved Relative, and In-home. The State of Alaska has defined “serious injury” as the following:

- Injury requiring surgery, excluding stitches;
- Injury requiring admittance to hospital;
- Choking or unexpected breathing problems;
- Unconsciousness;
- Concussion;
- Poisoning;
- Medication overdose;
- Broken bone;
- Severe head or neck injury;
- Chemical ingestion or contact in eye(s), mouth, or skin;
- Severe burn;
- Allergic reaction requiring administration of Epi-Pen; and
- Seizures.

1. Number of deaths in a child care setting:

There was a death of a child in a child care setting during Federal Fiscal Year 2017 . This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and Parent's Achieving Self-Sufficiency (PASS) I & PASS II/III In-home Providers.

Facility Type	Total Facilities in FFY17	Total Capacity for Facility Type in FFY17	Number of Deaths
Licensed Center	236	15,308	0
Licensed Group Homes	77	889	0
Licensed Homes	234	1,750	1
Approved Relative, Approved Non-Relative, & In-home ³	292	.	0

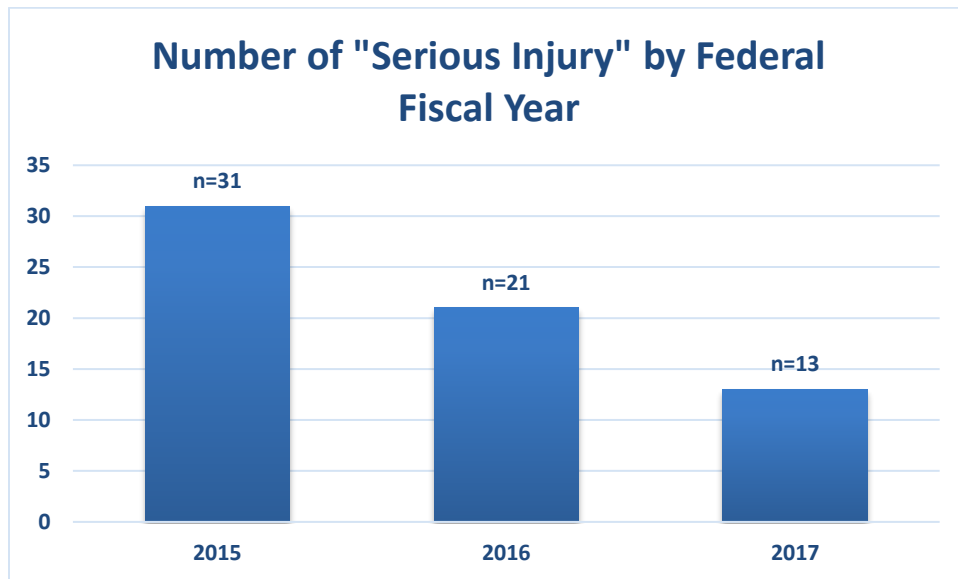

³ Capacity not provided for Approved Relative, Approved Non-Relative, & In-home providers due to provider type and only authorized to take care of children authorized for a specific family.

2. Number of serious injuries in a child care setting:

This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and PASS I & PASS II/III In-home Providers.

In Federal Fiscal Year 2017 (FFY17), out of an average total of 839 child care facilities with a total potential capacity of at least 17,947 children, there were 47 reported injuries statewide in a child care facility. Of the total 47 reported injuries statewide, 13 (28%) injuries were defined as a “serious injury” requiring medical attention.

Facility Type	Total Facilities in FFY17	Total Capacity for Facility Type in FFY17	Number of Injuries
Licensed Center	236	15,308	12
Licensed Group Homes	77	889	0
Licensed Homes	234	1,750	1
Approved Relative, Approved Non-Relative, & In-home	292	.	0

3. Number of incidences of substantiated child abuse in a child care setting:

None. This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and PASS I & PASS II/III In-home Providers.

AGGREGATE DATA REGARDING THE NUMBER OF DEATHS, INJURIES AND SUBSTANTIATED ABUSE IN A CHILD CARE SETTING

OCTOBER 1, 2015 - SEPTEMBER 30, 2016 (Federal Fiscal Year 2016)

The State of Alaska Child Care Licensing 7 AAC 57 and Child Care Assistance Program 7 AAC 41 regulations require all licensed child care facilities and exempt providers to report injuries requiring medical attention. Medical attention is defined as attention by medical personnel outside of the child care premises. Exempt providers include Approved Non Relative, Approved Relative, and In-home. The State of Alaska has defined “serious injury” as the following:

- Injury requiring surgery, excluding stitches;
- Injury requiring admittance to hospital;
- Choking or unexpected breathing problems;
- Unconsciousness;
- Concussion;
- Poisoning;
- Medication overdose;
- Broken bone;
- Severe head or neck injury;
- Chemical ingestion or contact in eye(s), mouth, or skin;
- Severe burn;
- Allergic reaction requiring administration of Epi-Pen; and
- Seizures.

1. Number of deaths in a child care setting:

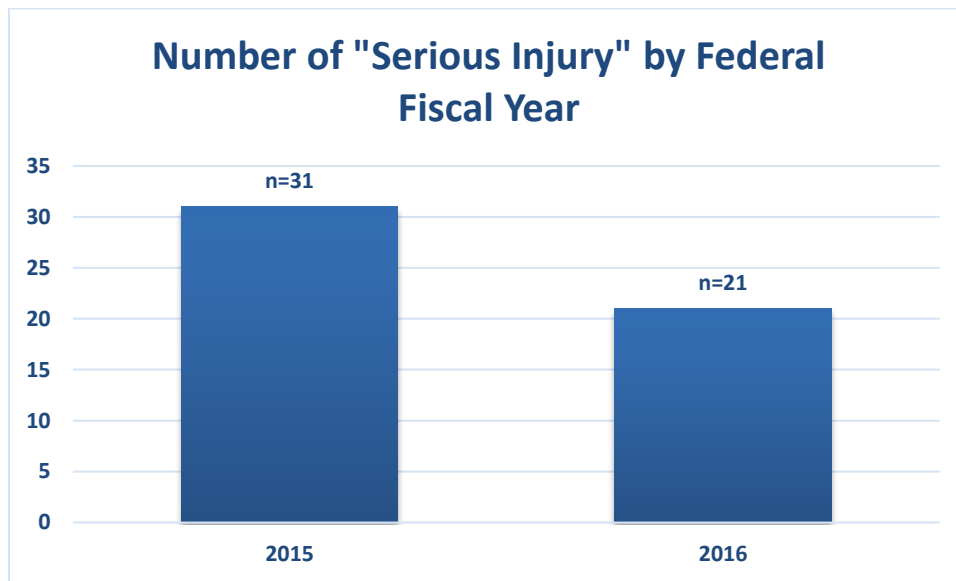

None. This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and Parent's Achieving Self-Sufficiency (PASS) I & PASS II/III In-home Providers.

2. Number of serious injuries in a child care setting:

This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and PASS I & PASS II/III In-home Providers.

In Federal Fiscal Year 2016 (FFY16), out of an average total of 532 child care facilities with a total potential capacity of at least 17,449 children, there were 78 reported injuries statewide in a child care facility. Of the total 78 reported injuries statewide, 21 (27%) injuries were defined as a “serious injury” requiring medical attention.

Facility Type	Total Facilities in FFY16	Total Capacity for Facility Type in FFY16	Number of Injuries
Licensed Center	226	15,080	20
Licensed Group Homes	82	947	0
Licensed Homes	238	1,783	1
Approved Relative, Approved Non-Relative, & In-home ⁴	361	.	0

3. Number of incidences of substantiated child abuse in a child care setting:

None. This data is based on all provider types regulated in the State of Alaska: licensed Centers; licensed Group Homes; licensed Homes; Approved Non Relative Providers; Approved Relative Providers; and PASS I & PASS II/III In-home Providers.

⁴ Capacity not provided for Approved Relative, Approved Non-Relative, & In-home providers due to provider type and only authorized to take care of children authorized for a specific family
