

## State-Supplied Adult INFLUENZA Eligibility 2023-2024

The Alaska Immunization Program is waiving eligibility limitations for adults for INFLUENZA vaccine. All adults and all pediatric patients are eligible for state-supplied INFLUENZA regardless of insurance status. All other state-supplied adult vaccines must still meet eligibility requirements.

State-supplied INFLUENZA vaccines:

Manufacturer	NDC	Brand	Description	Age
Sanofi Pasteur	49281-0639-15	Fluzone	Quad 5.0mL, 10-dose vial	≥6 months
Sanofi Pasteur	49281-0123-65	Fluzone HD	Quad 0.7mL single dose syringe, 10 pack	≥65 years
GSK	58160-0909-52	Fluarix	Quad 0.5mL single dose syringe, 10 pack	≥6 months
AstraZeneca	66019-0310-10	FluMist	Quad 0.2mL single dose sprayer, 10 pack	2-49 years
Seqirus	33332-0423-10	Afluria	Quad 5.0mL, 10-dose vial	≥6 months
Seqirus	70461-0323-03	Flucelvax	Quad 0.5mL single dose syringe, 10 pack	≥6 months
Seqirus	70461-0123-03	Fluad	Quad 0.5mL single dose syringe, 10 pack	≥65 years

Eligibility **MUST** be tracked for dose-level accountability. Adult patients who meet an “Ineligible” category must be marked as that eligibility but then can receive the state-supplied INFLUENZA vaccine.

When administering INFLUENZA vaccines to adult ≥19 year old patients, use the eligibility chart below. Follow the normal pediatric eligibility when administering influenza vaccines to pediatric 0-18 year old patients.

VacTrAK Category	Adult Insurance Status	HL7 Eligibility Mapping Code	HL7 Funding Source Code	Administration Fee Bill To	Vaccine Administration Fee Cap	Vaccine Cost Bill To
State Vaccine	Insured by private insurance including VA & AlaskaCare Retirees	V07	VXC 50 Public or VXC 52 Public Non-VFC	Insurance	Determined by insurance	Do not bill (state-supplied)
	Uninsured Adults	V23		Patient	Determined by provider	Do not bill (state-supplied)
	Medicaid/ Medicare/ Underinsured	V01		Medicare/ Medicare/ Patient	Determined by payer	Do not bill (state-supplied)

**If private vaccine stock is used, the correct eligibility category is always Ineligible (VO1); and the correct funding source code is PHC 70 Private.** Providers are required to screen patients for vaccine eligibility at each immunization visit to ensure accountability. Complete vaccine administration and eligibility data must be reported in VacTrAK within 14 days per Alaska Administrative Code 7 AAC 27.650(a).
