

## **Alaska Transparency in Healthcare Prices**

US Renal Care's top CPT codes that may have been performed in the facility for outpatient healthcare services are outlined in the table below. Additional resources and information regarding healthcare services can be found at the Alaska Department of Health and Social Services (DHSS) website: dhss.alaska.gov.

If you are covered by health insurance, you are urged to consult with your health insurer to determine your financial responsibility for healthcare services provided at this facility. You can also contact U.S. Renal Care Admissions at 253-327-2002 or email Karen.Simms@usrenalcare.com.

If you are not covered by health insurance, you are urged to contact U.S. Renal Care Admissions at 253-327-2002 to discuss payment options prior to receiving healthcare services from this facility. The healthcare prices below may not reflect the actual amount of your financial responsibility.

**NOTE:** The healthcare prices below are estimates. Actual charges are dependent on the circumstances at the time the service is rendered. Physicians will bill separately for their services and these charges will not be reflected in the estimate.

You will be provided with an estimate of the anticipated charges for your nonemergency care upon request. Please provide patient's full name, medical condition or service for which the patient is seeking medical treatment, the method by which the patient prefers to receive the estimate, including in a written letter mailed to the parent or guardian, by electronic means, or orally; and the patient's contact information, including the patient's mailing address, electronic mail address, or telephone number. Please do not hesitate to ask U.S. Renal Care Admissions for more information or an estimate.

| Product/Services Description   | 44—HCPCS/<br>HIPPS/<br>CPT code | U.S. Renal Care<br>Pricing |
|--|---------------------------------|----------------------------|
| CCPD PER DAY/COMPOSITE   | 90945                           | \$3,890.51                 |
| Continuous cycler-assisted peritoneal dialysis<br>(CCPD), also called automated peritoneal dialysis,<br>uses a machine (automated cycler) that performs<br>multiple exchanges at night while you sleep.  |                                 |                            |
| CAPD PER DAY/COMPOSITE   | 90945                           | \$3,890.51                 |
| Continuous ambulatory peritoneal dialysis (CAPD) is<br>done to remove wastes, chemicals, and extra fluid<br>from your body. During CAPD, a liquid called<br>dialysate is put into your abdomen through a<br>catheter (thin tube). The dialysate pulls wastes,<br>chemicals, and extra fluid from your blood through<br>the peritoneum. |                                 |                            |
| IRON, TOTAL (S)  | 83540                           | \$370.02                   |
| Assay of iron, blood test used to measure the amount of iron in the blood.   |                                 |                            |
| HEMODIALYSIS IN CENTER/COMPOSITE   | 90999                           | \$7,236.65                 |
| A blood purifying treatment given when kidney function is not optimum.   |                                 |                            |
| BUN  | 84520                           | \$185.01                   |
| Assay of urea nitrogen blood test that reveals how well the kidneys are functioning and adequacy of dialysis treatment.  |                                 |                            |
| HEMOGLOBIN   | 85018                           | \$323.43                   |
| Blood test to measure the red protein in blood to assess the degree of anemia.   |                                 |                            |
| PROTEIN  | 84155                           | \$173.03                   |
| Assay of protein serum blood test to measure the total amount of protein in the blood.   |                                 |                            |

| Product/Services Description  | 44—HCPCS/<br>HIPPS/<br>CPT code | U.S. Renal Care<br>Pricing |
|---|---------------------------------|----------------------------|
| UNBND IRONBIND CAP  | 83550                           | \$515.10                   |
| A blood test that measures the blood's capacity to bind iron with transferrin (protein).  |                                 |                            |
| COMPLETE (CBC) AUTOMATED  | 85027                           | \$439.23                   |
| A complete blood count (CBC) is a test that evaluates the cells that circulated in blood.   |                                 |                            |
| GLUCOSE BLOOD TEST  | 82962                           | \$111.80                   |
| A blood glucose test measures the amount of glucose (simple sugar) in the blood.  |                                 |                            |
| ASSAY OF PARATHORMONE   | 83970                           | \$2,334.57                 |
| APTH test is used to measure the amount of PTH, a hormone that controls calcium and bone health in the blood, and test for calcium, levels. |                                 |                            |
